

SNOSTOP - DIVISION OF ROOFERS WORLD INC

2590 Sheffield Road, Ottawa, Ontario. K1B 3V7 tel:613-736-7654 fax: 613-736-7737

SNOSTOP WARRANTY

Roofers World Inc. ("RW") warrants its Snostop Products for a period of 3 years from the date of shipment in accordance with the following.

1. ***Safety Factor***

The family of Snostop Products is engineered to handle the various snow conditions compiled by the National Research Council of Canada and the USA National Climate Data Center. Each order is configured for the normal snow load conditions in the specified location with a safety factor of at least 2.

2. ***Defects in Materials and Workmanship***

In the event that any of RW's Snostop Products are found to be defective in materials and workmanship within the said 3-year warranty period RW will repair or replace such defective Product or part thereof free of charge.

3. ***Installation***

RW's Snostop Product must be properly installed in accordance with RW's installation instructions. RW's warranty is rendered null and void in the event that RW's Snostop Product has been:

- (a) improperly installed, or
- (b) the installer has failed to complete and return the attached Installation Certificate.

4. ***Maintenance***

RW's Snostop Product must be properly inspected twice a year – in the Fall before the first snowfall. This inspection must ensure that the Snostop Product is in good condition and that no elements have been damaged or loosened – e.g. roof condition, bolts. Defects so identified must be corrected in a timely manner.

5. **Other Factors**

RW's warranty is rendered null and void if

- (a) RW's Snostop Product has been damaged, abused, misused, improperly repaired or modified, overloaded, not properly maintained, or suffered a natural calamity, or
- (b) that part of the roof to which RW's Snostop Product has been attached is deformed.

6. **Exclusion of Consequential Damages**

In no event will RW or its affiliates, or their officers, employees, agents, suppliers, or distributors, be liable for any indirect, incidental, special, or consequential damages whatsoever, including but not limited to lost revenue, building damage, or other commercial or economic loss, arising out of or relating to any breach of this agreement, even if RW has been advised of the possibility of such damage or claim.

7. **Notification**

In the unlikely event that there is a warranty claim for a Snostop Product failure, RW must be notified in writing within 30 days of such failure.

RW's obligations under this Warranty represent the full extent of RW's liability for, or arising out of, the supply of Snostop Products.

INSTALLATION CERTIFICATE

TO BE SENT TO
ROOFERS WORLD INC., SNOSTOP DIVISION,
2590 SHEFFIELD ROAD, OTTAWA, ONTARIO, K1B 3V7, CANADA

We, the undersigned installers, hereby confirm that we have installed the following Snostop Products:

—
—

We confirm that we have diligently followed the Snostop Installation Instructions. We have also answered the following questions:

1. Did you place the brackets on the quoted bracket spacing? _____
2. Did you use Snostop fasteners and drill bits? _____
3. Did you follow the Snostop installation instructions? _____
4. Did you use the Snostop approved torque device? _____
5. What torque was used for the bolts? _____ inch pounds

We also confirm that the roof design and structure is appropriate for the installation of Snostop Products and that the placement of Snostop Products was verified on site by an architect or engineer taking into consideration in particular:

- ability to withstand retained snow loads
- ability to withstand ice damming
- thickness of roof system, seam heights, clamp spacing
- roof slope
- exposure to drifting
- exposure to sun
- building orientation
