High Performance Hardware

## Endura Bracket™

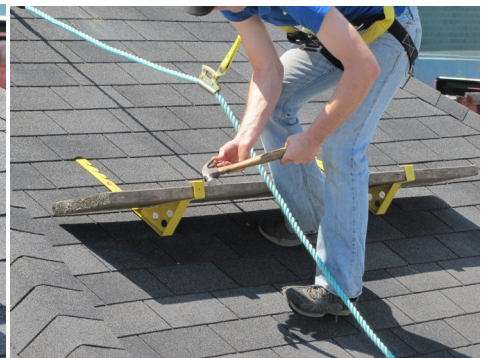

### Features

- Endura Brackets™ are all welded, not bent and tacked like many competitor products
- Base plates have reinforced ribbing that reduces flexing
- Every bracket features a scaffold retention plate to ensure that the planks do not kick loose
- 1/4" striker plate is set at 90° ensuring the structural integrity of the bracket
- Powder coated to prevent corrosion
- Twice the load bearing strength of regular brackets because of the welded steel reinforcement plate

### Sizes

- 2" x 6" x 45°
- 2" x 6" x 60°
- 2" x 6" x 90°
- 2" x 10" x 45°
